The screenshot shows a web browser window with the address bar displaying 'api.flowergolden.me/Second'. The page title is 'Searching results'. The main content area displays a table of search results. The table has two columns: the first column lists the search terms, and the second column lists the corresponding results. The results are categorized by type (file, class, function) and include specific identifiers like 'std::basic\_ostream' and 'std::wostream'.

file	iostream
class	std::basic_ostream
class	std::basic_ostream::init
class	std::basic_ostream::event_callback
class	std::basic_ostream::failure
class	std::basic_ostream::sentry
class	std::ostream
class	std::ostream::init
class	std::ostream::event_callback
class	std::ostream::failure
class	std::ostream::sentry
class	std::wostream
class	std::wostream::init
class	std::wostream::event_callback
class	std::wostream::failure
class	std::wostream::sentry
function	std::ostream_category
function	std::basic_ostream::basic_ostream
function	std::basic_ostream::~basic_ostream
function	std::ostream::ostream
function	std::ostream::~ostream
